Hi,

This is Tushara from the recruitment team of BizViz Technologies, Bangalore. We have openings for **Devops Role/Build Release**. Below is the **JD & Company details**.

About BizViz

Our experience includes 8 years of product development in SAP BOBJ and another 7 years implementing BI solutions for large MNCs. While interacting with our clients, we saw a need for an innovative platform that would transform the ideas of Innovators, SMEs, and Entrepreneurs into technologically competitive business applications.

BizViz is the ground-breaking platform that businesses have been waiting for. It provides a 360° view of a business's data, serving any vertical and meeting the demanding needs of all business executives. With a 50+ strong team building the BizViz platform over several years, it is targeted at creating technological solutions that will give our customers the edge they need to succeed.

We strongly believe that our success lies in the success of our customers. We aim to build applications the way they envisioned, keeping each business' unique ideas and requirements in mind. We offer businesses a better alternative to using standard cookie-cutter ERP templates.

In the Big Data era, innovators envision their businesses in totally unique ways. They need smart technology solutions to give them a 360° view of their data so that they can optimize their business resources – BizViz does exactly that.
